AI AUTOMATION SPECIALIST

n8n | Make | Zapier | AI Workflows | APIs | CRM Automation

PROFESSIONAL SUMMARY

AI Automation Specialist with hands-on experience building business-process automations using n8n, Make, Zapier, APIs, webhooks, CRM platforms, structured data, and LLM tools. Experienced in turning repetitive operational processes into automated workflows with validation, human review, notifications, and reporting. Background in SaaS support, CRM operations, process documentation, troubleshooting, and data validation.

CORE SKILLS

Automation: n8n, Make, Zapier, workflow design, scheduling, branching, error handling

AI: ChatGPT, Claude, Gemini, Groq, AI classification, AI-assisted generation

Integrations: APIs, webhooks, Gmail, Google Calendar, Google Sheets, Telegram

CRM & Data: GoHighLevel, Supabase, structured data, data validation, field mapping

Operations: Process improvement, troubleshooting, SOPs, workflow documentation, reporting

PROFESSIONAL EXPERIENCE

Automation Specialist

Autom8urBiz | Remote | Jan 2026 - Present

- **Build AI-powered business workflows using n8n, Make, Zapier, APIs, webhooks, and LLM tools.**

- Automate lead capture, qualification, CRM updates, follow-ups, appointments, notifications, and reporting.
- Connect business systems and structured data through APIs and workflow automation.
- Implement AI-assisted classification and content generation with human review for judgment-sensitive actions.
- Test, troubleshoot, refine, and document workflows for reliable operation and easier maintenance.

Insurance Form Mapping Specialist

Contract Engagement | Remote | 2026 - Present

- Map insurance form questions to structured system data and standardized data descriptors.
- Compare source PDFs against system data to identify missing fields, incorrect mappings, and inconsistencies.
- Configure repeating and signature-related field mappings for automated data population.
- Maintain tracking records and reports for completed work and identified issues.

Customer Support Representative

Support Ninja Inc. | Remote | Jan 2025 - Jan 2026

- Supported users of a US construction SaaS/CRM platform, resolving account, system, and workflow issues.
- Investigated problems, performed structured troubleshooting, and escalated complex cases.
- Worked with CRM records and business-process information while maintaining accurate documentation.
- Explained technical issues clearly to non-technical users.

Product Specialist VA, E-commerce Operations

Remote | 2023 - 2024

- Supported product, data, and administrative workflows for e-commerce operations.

- Maintained accurate operational information and followed documented processes.
- Assisted with recurring process coordination and issue resolution.

Earlier Customer Support Experience

BPO / Customer Support | 2020 - 2025

- Managed high-volume customer support using platforms including HappyFox and Zendesk.
 - Handled approximately 100-150 tickets per day while following documentation and escalation procedures.
-

SELECTED AUTOMATION PROJECT

DentalFlow | AI-Powered Dental Clinic Automation

n8n | Supabase | Google Sheets | Google Calendar | Gmail | Telegram | Groq

- Designed a multi-workflow system covering lead capture, patient management, appointment booking, confirmations, reminders, missed appointments, reactivation, and reporting.
- Connected multiple business systems through n8n and APIs while maintaining structured operational data.
- Implemented AI classification and message generation with human-in-the-loop review for sensitive decisions.
- Built appointment availability and double-booking protection logic, status tracking, staff notifications, and automated reporting.
- Applied database access controls for tenant-level data isolation.

EDUCATION

Bachelor of Science in Information Technology, Undergraduate
STI College | 2011 - 2013
